

Napersoft zCCM BatchMerge 5.2 for Batch Document Creation

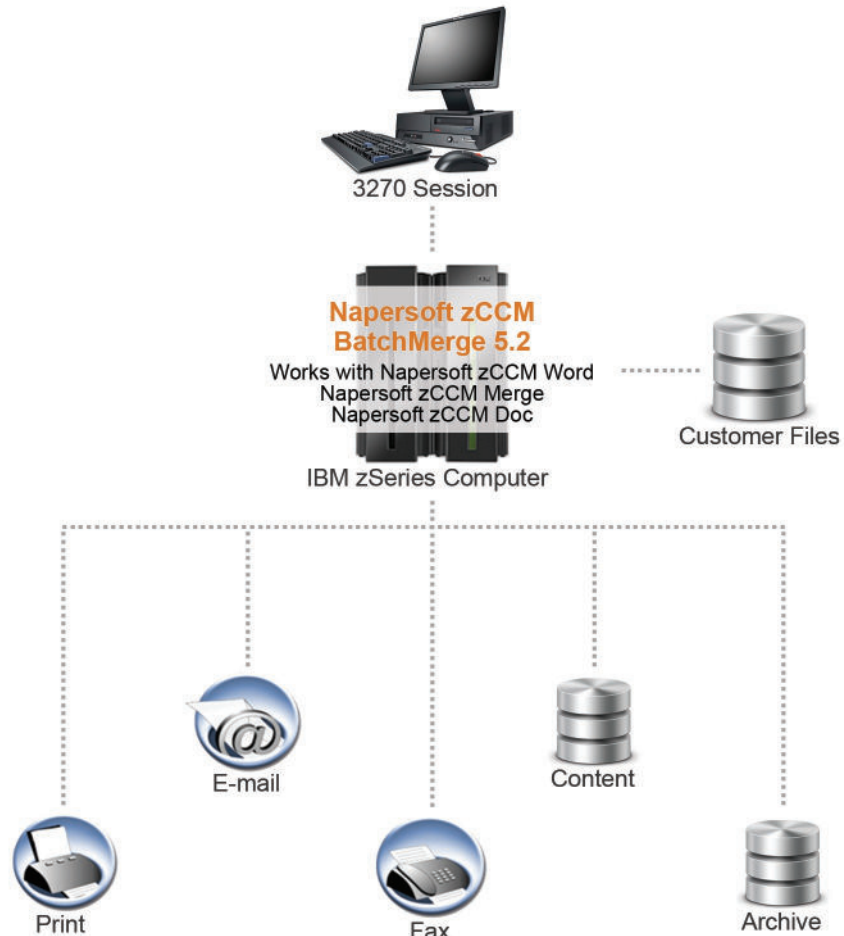

Overview

Key Benefits

- Streamlines the creation and distribution of batch oriented customer communications
- Provides access to customer data across your organization
- Automatically inserts customer data into forms
- Ensures personalized customer communications
- Can be run on a stand-alone basis or called from your batch application programs
- Selection criteria and file definitions can be defined via control records, user exits or your calling application program
- File maintenance options to copy, move, delete, recover and paginate content

Napersoft zCCM BatchMerge 5.2 is a world-class batch Customer Communications Management (CCM) engine for the enterprise. It streamlines the retrieval of customer information from databases, the assembly and personalization of content and the distribution of customer communications.

zCCM BatchMerge personalizes data from any SAM, VSAM or DBMS file with Napersoft zCCM Word forms. You can create and distribute personalized documents, letters, statements, notices, envelopes and other business forms.

- Standard Boolean logic (and, or, =, NE, <, >)
- Patterned selections (select all records with xxx)

Output support

- Supports all features provided in Napersoft zCCM Merge Printer, disk or tape
- Electronic archive file

Functionality Overview

Napersoft zCCM BatchMerge 5.2 can be run on a stand-alone basis or called from your batch application program. Selection criteria and file definitions can be defined via control records, user exits or your calling application program.

zCCM BatchMerge operates on IBM z/OS Versions 1.11 to 1.13 (and above) zSeries mainframe and plug-compatible computers. zCCM BatchMerge also requires CICS Transaction Server for z/OS Versions 3.1 to 5.1 (and above). All mainframe environments require an IBM 3270 or plug-compatible personal computer, printer and disk. Content libraries are stored in VSAM files.

Can be installed by the customer or by Napersoft Professional Services staff on a fee basis.

Software (cartridge or electronic download) includes:

- Object code
- Sample JCL
- Sample control cards
- Sample user exits

Documentation includes:

- Napersoft zCCM BatchMerge for z/OS Programming Guide
- Napersoft zCCM Document Platform for z/OS Installation Guide

Printers supported:

Napersoft zCCM products output the major print streams that work with laser, impact, ink-jet and other online and batch printers, including:

- AFPDS using PSF Release 2.0 and above
- PCL
- DJDE
- Line Print

In addition, a customizable printer driver technology is available to support any print stream required.

Prerequisites:

- Napersoft zCCM Word 5.2
- Napersoft zCCM Merge 5.2
