Overview

Napersoft zCCM SDK 5.2 is a Customer Communications Management (CCM) toolkit for developers to extend the out-of-the box capabilities of Napersoft zCCM portfolio of products. zCCM SDK subroutines can be called by your COBOL or Assembler software programs. zCCM SDK provides subroutines and tools that work with zCCM Word and zCCM Merge content libraries. Other stand-alone tools provide useful functions such as converting data from all upper case to mixed case and automatic gendering. These online and batch oriented tools help simplify content creation and maintenance.

Napersoft zCCM SDK 5.2 for Developers

Key Functionalities

Content Maintenance Tool
- Read documents in final or revisable formats from Content Library
- Delete, create or verify from a document page level to document, to folder, to user, to organization levels
- Use as a stand-alone subroutine in IBM Batch or CICS using standard linkage

Irregular Capitalization Tool (online or batch)
- Convert upper case to mixed case or all lower case
- Irregular capitalization of names like McKay or CEO
- Revisable table with thousands of irregularly capitalized names and titles
- Multiple tables can be created and referenced
- Stand-alone subroutine as well

Gendering Tool (online or batch)
- Automatic recognition of gender
- Revisable gender table with thousands of first names
- Stand-alone subroutine as well

Functionality Overview

zCCM SDK operates on IBM z/OS Versions 1.11 to 1.13 (and above) zSeries mainframe and plug-compatible computers. zCCM SDK also requires CICS Transaction Server for z/OS Versions 3.1 to 5.1 (and above). All mainframe environments require an IBM 3270 or plug-compatible personal computer, printer and disk. Content libraries are stored in VSAM files.

Can be installed by the customer or by Napersoft Professional Services staff on a fee basis.

Software (cartridge or electronic download) includes:
- Object code
- Sample calling routines in COBOL/Assembler source

Documentation includes:
- Napersoft zCCM SDK for z/OS Programming Guide
- Napersoft zCCM Document Platform for z/OS Installation Guide

Prerequisites:
- Napersoft zCCM Word 5.2
- Napersoft zCCM Merge 5.2
